

Hubert Grzesiak

Frontend Developer | Software Engineer

Frontend Developer with 2 years of experience specializing in React, Next.js, and TypeScript. Proven ability to develop efficient web applications, demonstrated by a successful CRM system migration and the creation of a personal booking platform using MongoDB. Focused on delivering valuable and user-friendly solutions.

Work Experience

Freelancer

JANUARY 2025 - MAY 2025

- [webtoast.dev](#) – AI-Powered SEO Blog | **Currently Developing**
Developing an AI-driven platform to automatically generate and publish 20+ daily articles on current AI topics, strategically designed to maximize SEO reach and organic traffic.
- [bnp.global](#) – Web Platform with Payment Integration | Co-developed with brother
Built a full-stack Next.js platform handling 500+ daily (2k peak) users, featuring Stripe payments, an interactive map, and eBook management.
- [wnetrze-raju.vercel.app](#) – SPA Website with CMS | Co-developed with brother
Created a fast, responsive Next.js SPA with a custom CMS for a luxury spa, focusing on SEO, pixel-perfect design, and mobile experience.

Junior Frontend Developer @ Helpfind

JANUARY 2024 - JANUARY 2025

- Developed and launched 5+ dynamic landing pages using Next.js, collaborating with graphic designers and SEO specialists to optimize for search visibility, which contributed to an increase in user interaction metrics by 30%.
- Engineered and optimized a library of 30+ reusable React components, reducing new feature development time by approximately 10-15% and ensuring codebase consistency.
- Actively contributed to the migration of over 50% of a legacy PHP CRM to React and TypeScript, utilizing the RESTful API method, which significantly enhanced system performance by an estimated 40%.
- Contributed to enhancing UI/UX based on design mockups, ensuring responsive and user-friendly interfaces across devices.
- Actively participated in an Agile (Kanban) workflow, managing tasks across multiple sprints and collaborating with cross-functional teams to meet project deadlines.

Internship | Frontend Developer @ Helpfind

JANUARY 2023 - JANUARY 2024

- Actively participated in the team's agile workflow, learning the codebase and contributing to the modernization of a large-scale CRM system.
- Assisted senior developers in debugging and resolving UI issues, gaining hands-on experience with TypeScript, React, and Next.js in a professional environment.
- Supported the team by contributing to the development of UI components and participating in code reviews to learn best practices.
- Promoted to a Frontend Developer role after demonstrating strong technical skills, a proactive attitude, and a quick learning ability during the internship period.

Education

Bachelor of Computer Science @ University of Kalisz

OCTOBER 2021 - MARCH 2025
